

DISPATCH

Rulebook

The Baltimore City dispatch computer has been hacked!

Do you have what it takes to crack
the code and find the password
before time runs out?

Dispatch is a co-operative puzzle
card game for 1-10 players.

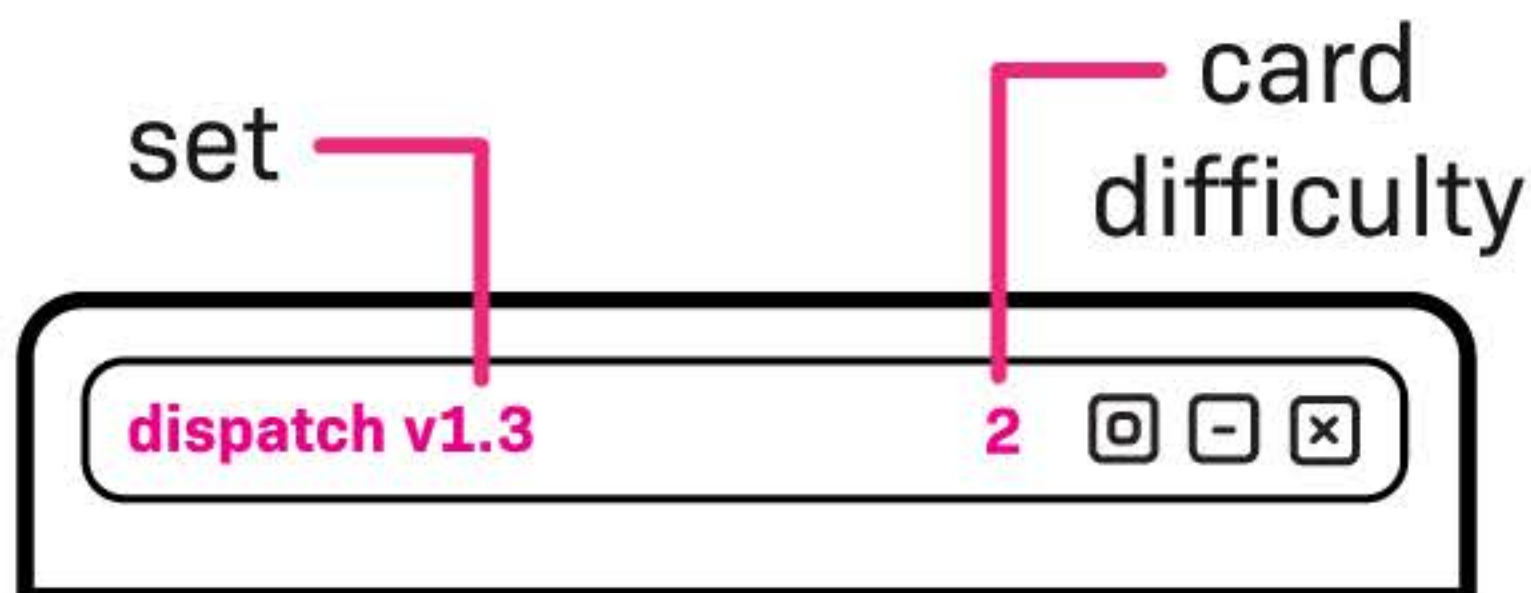

Setup:

1. Organize the cards into sets and
select one to play.

example:

1.1, 1.2, 1.3, 1.4, 1.5, 1.6

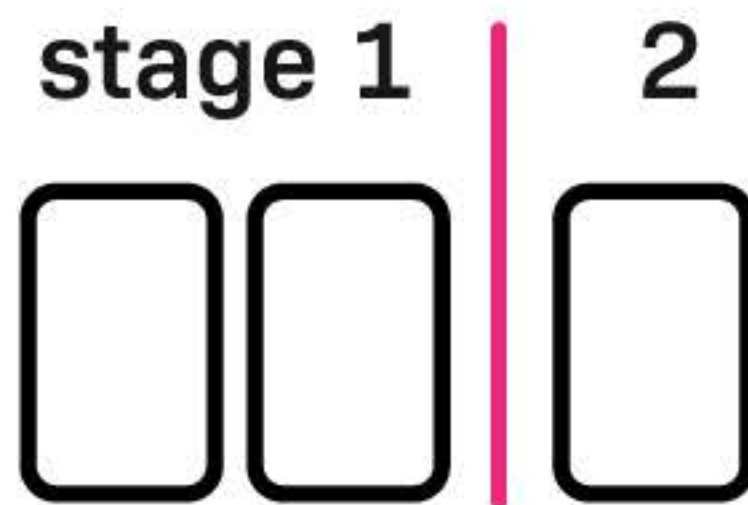

higher set #s = higher difficulty

2. Ask player(s) if they have time for a 10 or 5 minute game.

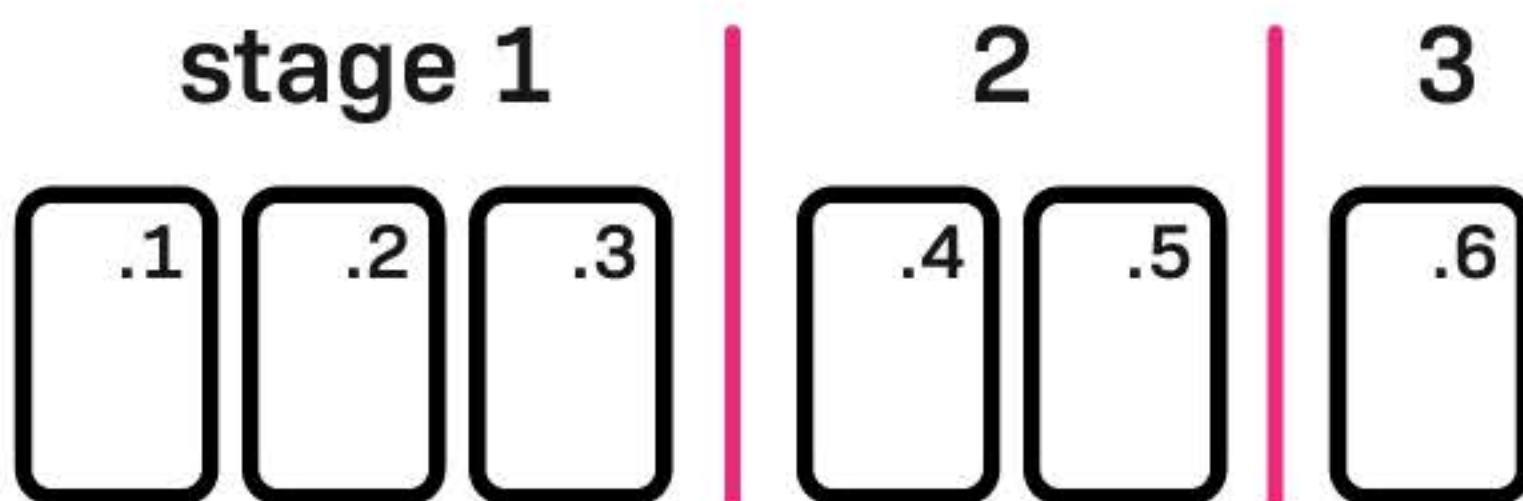

3. Set a timer for the game length chosen.

4. Place the corresponding puzzle cards face down based on the game length diagram below:

5 minute game:

10 minute game:

6. Under each puzzle card, place a blank dry-erase card.

7. Finally, place a timer on the table within sight of all players.

Gameplay:

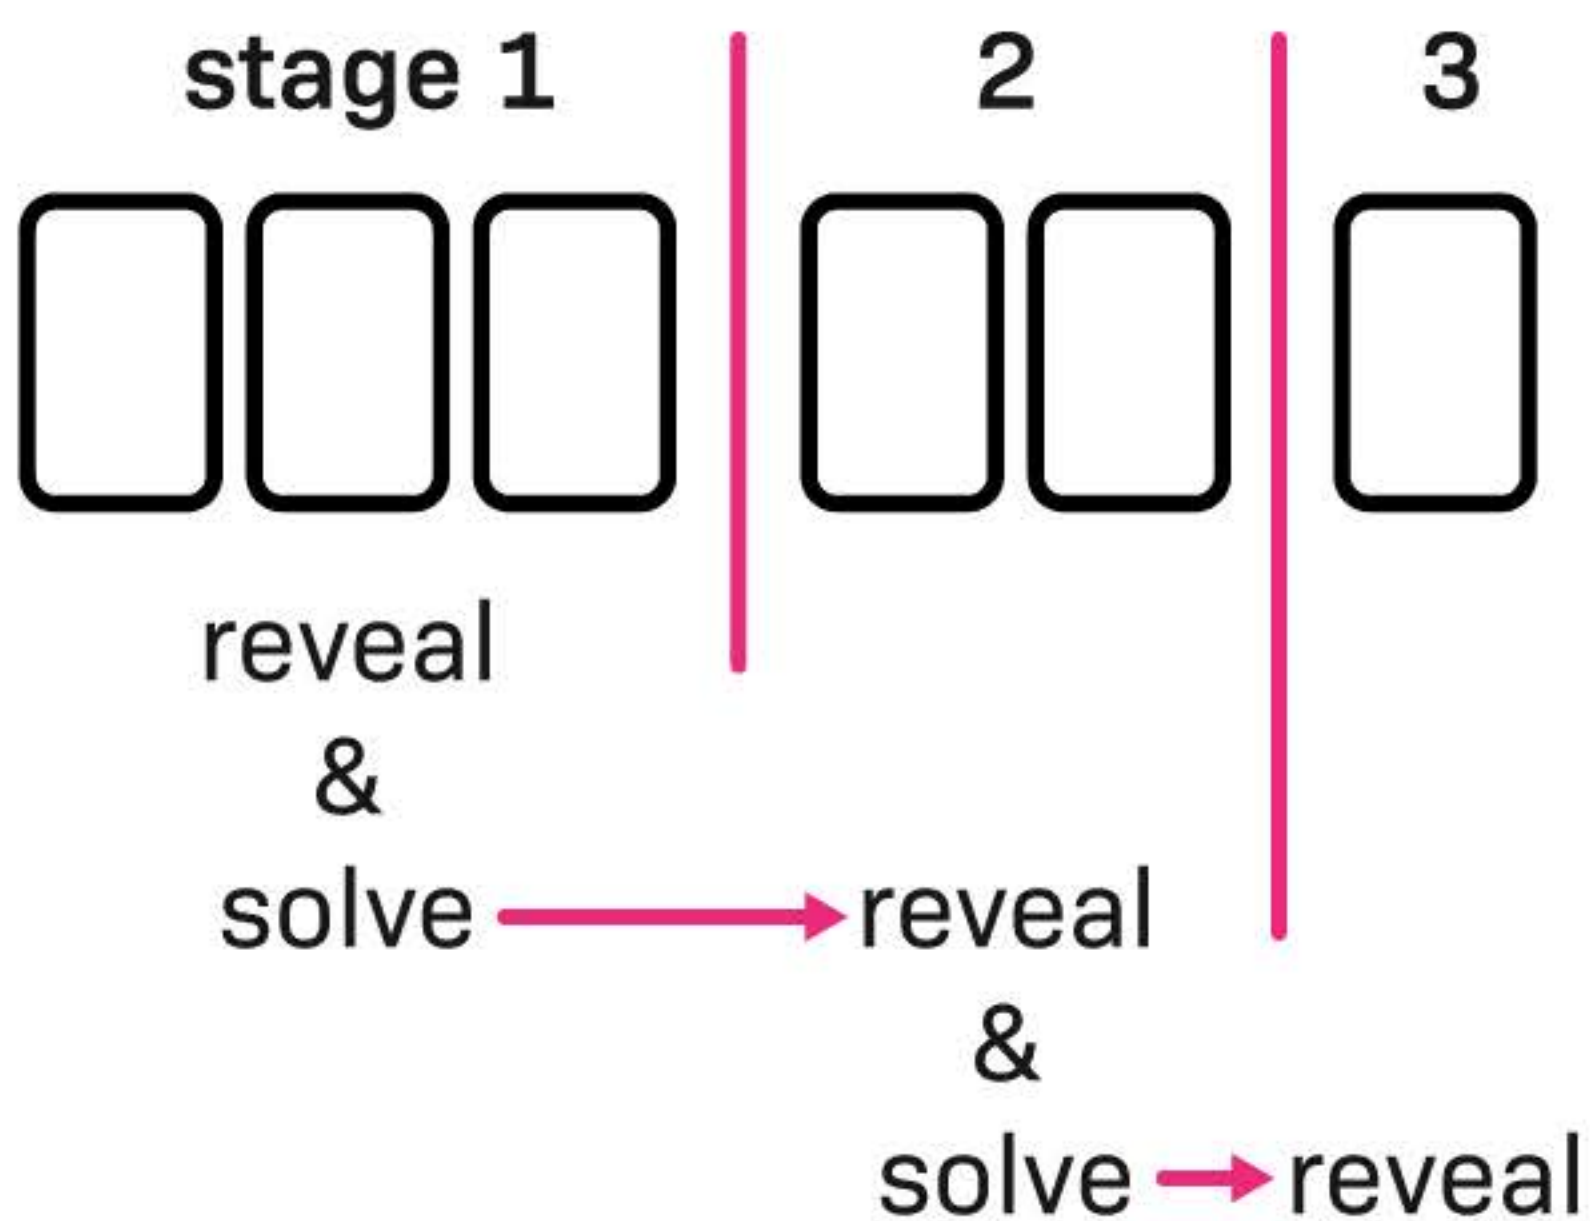

All answers are **numbers** related to **Baltimore's history and culture**.

Players are encouraged **to use their phones** to assist them in solving puzzles.

Start the timer and **flip over all Stage 1 puzzle cards**. When the players have an answer they **write it down on the corresponding dry-erase card**.

Once they have written down their answers for **Stage 1, flip over the Stage 2 cards**.

Once all **Stage 2** cards have an answer written down, **flip over the final card and decipher it**.

Ending & Scoring:

Dispatch ends in one of two ways:

the timer runs out

OR

all puzzles have an answer

When one of these conditions is met, you may flip the cards back over and use the decoder to check your answers, or find the answers to the puzzles in the rule booklet.
